My favorite smallmouth rig is a 9'6" 6-weight Orvis Clearwater rod, fitted with a Cabela's Prestige Premier reel. I carry one spool with a (now discontinued) Rio Clouser WF6F for general fishing, and a spare spool with an SA Professional WF6F/S III sink tip line for deeper/faster water. For leaders, I use a Cabela's 9' 8# Bass tapered leader with the floating line and a Cabela's 6' 10# Bass leader for the sink tip.
