Does anyone have any advise for floating and fishing the pine gorge? My father, brother, and I have been talking about doing a kayak float trip down the gorge for years and if we dont do it soon we probably never will.

Im looking for any info anyone would like to offer...put in take out, camping options, length of trip, nice areas to wet a fly...

As of now thinking about put in at Ansonia but not sure how far to go. Looking at at least and over night float/fish/camping excursion.

Thanks in advance
