+1 for NFO. I have a 2 man and love it. easy to set up, take down... I don't have a trailer so entire boat, frame, oars, etc. are packed into the back of my Subaru. Very stable, easy to row.

I did have issues with the customer service when ordering some accessories... Basically, took forever to get delivered, but I will say that the one item I had a problem with NFO took care of right away. I wouldn't let this be a deal breaker.
