Dear poopdeck,

I don't fish anything smaller than a size 6 fly for smallmouth and I often fish size 1 to 3/0 flies. If you buy a 5 1/2' mono furred leader of 16# test and attach 2' to 2 1/2' of 8# test as tippet you can cast a small dog easily with proper rod.

Get an 8 weight and be done with it.

Regards,

Tim Murphy 😊
