Cuda's are great fun on fly. I have caught more of them than I could count. They do come in shallow. Winter time in the keys. Feb. and March are the best times. I have had some very large ones in the past. The biggest one ever on fly was 62". I have some flies I tie that work very well. Hook a big one and it will blow your mind how fast they are. But that 87 pounder is huge.
