Small Stonefly, Conodoguinet, 2/1/2014

Author: : Night_Stalker

Date: : 2014/2/1 22:37:28

URL:

I saw this tiny stonefly today on the ice. I looked for more...but only the one. Less than 3/8" total length. Body with out antenna and tails was about a 1/4". Not to much bigger than a large midge.
