Hi Greg,

I'm putting a small bar in my basement and would like to place some donated flies under the top of the bar. If you've ever been to the Hotel Manor on Pine Creek, that's where I got the idea... My best advice for learning fly fishing is to watch some of the many videos on youtube and go to a local fly shop and take a beginning lesson. Taking a lesson would also save some money if you want to see if fly fishing is for you before spending money on equipment. I've fished near everett on Yellow creek which isn't too far from Hollidaysburg. Hope this helps.

Dan
