Kray,

My casting stroke seems to favor slower rods. At the Fly Fishing Show, I loved casting the G2, then the Radian, and actually lastly the S4 from Scott. Another rod that really blew me away was the Beulah Platinum 884-4. I would get one of them in a heartbeat and they look sharp too. Surprisingly though, I casted a Sage Method and I was throwing bombs! I doubt there was 5 weight line on the 590 though. Probably 7 weight since the presenter was using the rod and then let a few people cast it.
