Thanks for the information. I think I'm going to go with a 6wt. I never met a rod I couldn't cast. I never paid more than 150.00 bucks for a rod and usually I pay less than a hundo for one.

Running Cricket, I like to furl and fish thread based furled leaders. What's your thoughts on furled mono leaders. That's a tapered furled leader made on a jig not a hand twisted leader.
