Hooks and Beads

I'm sticking to a few basic patterns for now and seem to be OK with materials for what I'm tying. When I need em I'll post ...

But I need hooks and beads.

Tried tying small scuds per a video but not happening right now and it was just too tough for me at this stage ... not really ready so we can go light on those so I have them a month or 2 down the line ...

Not sure what size I've been tying but considering not to small what size and type of hooks do u guys think I need. I've been concentrating on a few patterns and will move on to the popular PT, HE, Prince, etc Also as spring is upon us I expect to try tying the popular Eastern PA dry's and some beetle's & ants ... should be more than enough to keep me busy in the tying arena

Since the closest thing to a Fly Shop to me is Dicks I'm gonna make an order to keep me going for awhile and I'm thinking of Allens Just think its important to support the sponsors of the board and a few gents have spoke highly of their hooks.

What am I ordering (lol)?
