Ok, very good. Thanks a lot guys, that's exactly what I was looking for. "T" that's one fine looking school of streamers you've got there, real nice tying. I'm not tying what you would call monsters so I don't believe I'll need beads on these. Appreciate all the responses.

Thanks! Yeah you should be fine without any beads. If you do need them though, you might as well get them while you're buying the beadalon. I got some nice matte olive ones for like 98 cents haha
