Tloomis. The key is definitely good bucktail. If you have bucktail that is short or when you are layering in your colors you have a bunch of different lengths of bucktail it will look weird. The best thing you can do is have all really good bucktail but if that isn't an option just try to trim the hair at the butt before putting on the hook so that all your lengths are relatively uniform. I rarely use any hair that is less than 4 inches.
