Poconos / CPA / NEPA Conservancy's ?

Anyone know anyone in any orgs in those areas who would have a mandate to conserve currently private land and water in the poconos for public recreation ?

A former private owners land n water is for sale and I want to make sure the right people get it if I can....

I can't buy it myself and gift it to a 501c3 as banks won't mortgage rec land without 30% deposit, I can't Crowdfund it due to confidentiality issues, and I can't form a fishing club / camp without it pissing off a shed load of good folks, so last resort is call in the good guys.

I have no financial interest at all - I just stumbled on it when i was looking for myself for a small bit of land to restore.

Not that it's relevant but it's 48+ acres of preserved land plus a mile or so of a major poconos creek. The seller says its class A but I'm not sure, but you can guess the ball park sale price huh ?

If any org members can put me in touch with a Director etc i think we all could be grateful one day .

FYI this thread is just to request the relevant contacts, i did discuss it with Dkile first, and I'm not canvassing \$\$ in any way at all.

If anyone has any ethical issues, I'm open to listening; and no I'm not telling where it is not even by PM.

Thanks in advance

Mark
