It only has to happen once the that they don;t let me back in or I fight every fish from then on right there in the hole...Hey, I let 2 kids come in an ruin my hole where I had just caught 2 in 15 minutes. I was hoping one of them would hook into one. Thought that would be interesting at the least to watch. But they walked right thru it an scattered the fish and ruined the only moving water in the creek. So I'm pretty willing to accommodate others. I just expect the same courtesy in return.
