I have fished the Clarion River a lot. I went to college at Clarion and have fished the river in and above Cook Forest as well as at Piney Dam. I have never fished the trout section of the river that is further up stream. There is decent smallmouth to be had on the lower clarion and I'll second the bugger. That should connect with those fish. The dam can be difficult to fish but there are nice muskies and walleye as well as big largemouths in there...and a lot of perch.
