Looking for 6.5' or smaller fly rod

Hello, I am new to fly fishing. A friend of mine Gfig and The Sasquatch were fishing at Hammer Creek in Lancaster, PA. They both have rods around 6.5'. I currently have an 8.5' and would like to get something a little smaller. Any recommendations on web sites or stores where I can get a good deal? Does anyone have one they are willing to part ways with? I am looking to get it on the cheap side since I am new.

Thank you!
