I fished there late last spring and had a great time. Be prepared for some long up hill hikes, so take a few snacks and plenty of water. As already mentioned talk to Mr. Murray and he will be able to give a good starting point and definitely stop before you get into to park. He is by far one of the nicest, most down to earth person that I have ever had the pleasure of meeting. He will be more than willing to go out of his way and help you out. He made us copies out of his book to help us out even before I bought it. It's a great time if you don't mind putting a few miles on your legs.
