Fellas. I'm in Carlisle also & would like to meet up at some time. I've been fffing for close to 30 yrs, but am in no way an "expert". I get the "pleasure" of cossing the LeTort & Breeches every morning on my way to & from work, so I could eyeball stream conditions.

Mornings will be tough until after June 11th. Afternoon & evening are probably best now for me, though I should take a day off in early May. Choco duns, bwos, blue quills & hendricksons should be coming off w/in the next two weeks. Let's watch the weather & plan something.
