Foxgap thanks for the Orvis tip. I'm just not in the habit of carrying a net. I bought one, lost it, bought one, lost it, finally bought one that I've had for about 2 years now, but most times it lays in the back of the Volvo. I just keep forgetting to strap it on! Taking pictures of fish is much easier w/ a net, I think. Gotta change my habits. Especially when I'm fishing streams that hold larger trout.
