Heading out to Glacier this summer for a family reunion and besides doing my usual internet research just thought I'd see what thoughts/experiences anyone has had in that area with places to fish and any guide suggestions. Always like to give my business to people that have a good reputation. Hoping to extend this visit with a follow up week visiting more family in Bozeman. I got the Bozeman area pretty well covered but this will be my 1st time up in the Glacier NP area. Thanks !

Oh, Heading out in mid July...
