Andy, a few years ago I visit my nephew who was doing his graduate work on Flathead Lake south of Glacier. He took me to The South Fork of the Flathead River in The Bob Marshall Wilderness Area. It was 65 miles on dirt roads and a 4 mile walk to the stream. Worth every mile of the trip to get there.

That is in that area and with a little research you could probably find a guide that fishes that area.

There are lots of other streams in that area but that was really special
