I don't think this is the correct place for this, mods can you move to the correct place.

I normally am a catch and release guy, but I have a friend coming to town who is looking to keep some fish. I normally fish the DHALO waters.

I am looking for any suggestions on where to go that would have some good size fish to keep.

I am in the Phoenixville area. I would be willing to travel a little to find some good water, around 30 minutes would be ok.

Thanks in advance!!
