French is your closest and best bet; nice variety of water and more fish than most streams. I learned to fly fish there and still enjoy visiting since I was born and raised right outside of Phoenixville. Pickering gets way less fish and has a lot less good area to fly fish IMO. There are always fish if in French you look in the right spots. (until it gets low and warm that is) Just avoid the times near stockings and the crazy club contests that happen in May.
