Lol, I love it. Did exactly the same thing, pretty sure we all did. You don't have to pull em out of the water on the set, My set is a raise of the arm with a small quick snap of the wrist.

you'll get it, your casts will get more accurate, you'll start remembering to look around you for clearance for the cast, soon you'll be doing it and won't even realize you're doing it until you realize you are cause you're grinning to your self. Yes, it get's easier. But not too much, cause if it was easy it wouldn't be as much fun now would it? Enjoy your journey...
