Hello everyone,

Found this site while looking up some new streamer ideas. Looked like a cool place so I joined. Lots of good info on here. I hope to learn a lot and share what I have learned.

I tie and fish for mostly trout and small mouth. I am big on streamers and swing a nymph now and again.

Looking to expand my knowledge of dry flies. Might try and get some fly swaps or something going. I have done them before and enjoyed it. Anyway hello again and fish on!
