Nice pike. We have some pike in my neck of the woods here in SC, but they're not widespread. They're easy to catch in springtime if you time it right, but usually by this time of year they're pretty deep. Some gear guys trolling for muskies on a local lake will sometimes get a big pike in summer. I would think that river pike may be more susceptible to fly fishing in summer(?). The North Branch of the Susky has some pike but they are rare downriver around here.
