Different rod lengths allow you to do different things. Bushkill creek you could use anything from a 6'6" up to a 12' nymphing rig. A 8'6" or 9'er would be a good bet.

Where are you located? I'm in Stroudsburg. I mostly fish the Brodhead, McMichael, and the Pocono.

Sometimes I fish other local streams. I also fish the Big-D and the Susquehanna for smallies (great fish for the fly rod).

Contact me if you want to meet up.
