You can obtain a parts reel: the cheaper, newer, models are reversiable and all parts will transfer.

You could try contacting Pure or Shakespeare or whomever owns Pflueger and request a replacement plate. Don't tell them its for a classic, they'll insist it won't work. Since the reels ar enow out of production, you're probably wasting effort here.

You could obtain a plate from a third party, specifically One Pfoot.

You could learn to stop worrying and love the bomb. You'd be surprised at how little it matters which hand you wind with.

That said, I'm sure someone on this board would love to take your storied classic and rape it with a wire brush and some paint stripper.
