URL:

Was browsing fly tying kits to get me started, and came about a really cool orvis fly tying kit circa 1978. Just won and paid for the auction. It also included a Thompson Type "A" vise in what looks like a very old box, but all in perfect condition.

The orvis kit is complete with a very nice leather bound "index of orvis fly patterns" and a "Fly tying how to get started" book. the latter is by Eric Leiser if that means anything.

Excited to get started. Should also have the free hooks soon that were provided by risen fly in their "post a comment to enter to win free hooks" thread he did recently.
