Hello I have been searching for fly rods around the web and I can't figure out a good fly rod for for larger freshwater/ warmwater fish and small to medium sized saltwater fish.

I'd recommend a 9' for an 8WT.

If you think it might see more duty in the salt you may want to go with a 9WT. However, if is mainly going to be used for freshwater bass fishing on rivers, I'd stick with the 8WT.
