oh i've seen some real nice bows - over 20" and i've only fished there twice.

two were sitting under a downed tree, and the other one was sitting in 18" of water a foot off the near bank near that big concrete block just above the car park opposite T351.

i also saw a bunch at the mill race opposite Springfield - i think that may be the start of what you call 'the ditch' maybe ?

and when i was packing up once a young lad showed me a picture of a 22" bow caught nymphing that morning in the fast where the log triangles are.

there is an awful lot of water to fish on big spring, what you see depends on where you are - i haven't even fished the weed beds up around Oak Flat rd...
