There are big fish but you should have seen it 30 years ago. They were in the ditch. It was nothing to see 25 fish in the 4-5 pound range and a handful in the 6-9 pound range. There were also some found way below the ditch section if you knew where to look. It's really changed and hold fewer browns in the first mile or two.

Fishing the CV classics can make you second guess yourself. Observe first...fish second.
