Maurice is in your area. Not sure if his TU chapter does fly tying stuff, but he could help I'm sure. Not to get all mushy about it, but Mo has taught me more in a week of hanging out with him at jams* than most other people I know. Half the time, he probably didn't realize he was teaching, and the other half, he probably doesn't remember!

*The annual PAFF jamborees. Look around the site and book a trip up there when we do it. It's worth it.
