Geeez! I need to learn the lingo! I Don't fish dry sulfur flies. Maybe that makes it more clear. I do fish spun bass bugs and poppers but usually use them on ponds and lakes. The wooly bugger might seem simple but in small river/ large streams that hold trout/bass/rock bass I sure get results. My Brother gave me a present for Christmas. 2 Guided trips to his favorite spots and some flies he tied that work. I'll let you know how I do. If it's good, I'll be hard pressed to share family secrets. There is 8 years between us (I'm older) but he always finds something to teach me. I have to say the love of fishing and hunting that we have is what connects us the most. They talk about being connected with kids. Take them to the creek. You don't have to do more than flip rocks and pack a peanut and jelly sandwich. G!r!s or boys there is nothing better than seeing what lives beneath and sitting with Mom or Dad or Grandparents and eating your P&J on the bank. I know it and my Brother knows it and yes we know a few other things that makes fishing so much fun. We do catch fish, we bust on each other and we're family.
