Fished Spring Creek on Saturday and Sunday. Due to the recent rain, the stream was pretty high and off color on Saturday. We did well using streamers and wolly buggers. I think we caught about 10 and missed twice that many in about 4 hours.

Sunday was brutal. It was snowing like crazy, windy and of course guide freezingly cold. The stream had cleared up a lot and was flowing closer to normal. We were only tough enough to stay out for 2-1/2 hours and managed about 1 fish each per hour using the same flies as Saturday. It sure felt good to get out.
