I hope you get that 20"!! 🎣

Myself, I am hoping to get into some smallmouth and more so I would like to catch carp on the fly. I have taken both with a fly rod already. However, not intentionally. So for me it doesn't count in my own eyes. From what I hear goin for carp is like going for bonefish. Sounds challenging....should be fun though. I hear when the mulberries start falling of the trees carp can't resist them. I have located a mulberry tree on one of my local waters. Come on June!!! 🎣
