I'm headed up with a smallish group on the 28th of Feb. You are more than welcome to join us. I've been going for steelhead for 2 years now. I am no means an expert, but usually catch fish. I have luck with any egg pattern in a cream color, and in the spring I like bead head nymphs, especially the prince. PM me if you want to meet up with us. I'd be more than happy to help you out up there.

Ryan
