I would highly recomend the 10 foot rod over the nine. It probably will not affect your landing rate, but it is easier to get a good drift with the extra foot of rod. If you are fishing Elk there is a Holiday Inn (I think) right on Sterratania road that puts you close to some good fishing plus Folly's End is flyshop is only a few miles down the road and they offer a lot of access. The Holiday Inn also has a bar and restaurant in it. Everyone else answered your other questions so I will not repeat.
