Not too sure about when the rattlers start coming out, but I can assure you that you'll know one if you see one!!!

As for the backwoods precautions....

- 1.) I always carry a gun. Lots of bears and reportedly mountain lions (yes I said cougars) north of I80.
- 2.) I carry a tool bag in the truck with me. Might come in handy if your truck breaks down several miles back an access road.
- 3.) Tow straps or chains are always good to carry. A full size shovel has saved me several times as well.
- 4.) And your cell phone.... everyone seems to remember to take this with them, but not everyone remembers to keep it fully charged. Its great to have should you get hurt, but won't do you much good with a dead battery!
