I've seen small kits at Gander or Dick's for upwards of \$40.

Sam's has one about the size of a suitcase for about \$20. Thing is just loaded with gloves, antiseptic, splints, you name it. From that I can make my own different sized kits, from Altoids tin sized on up. I'm about due for another one.

I usually have an altoids tin in my fly bag, a waterproof pouch in my backpack, and a pouch in my truck.
