i picked some up last year (9' 5x cameleon), i think i paid some where around a buck a piece, so i figured what the hell...

i don't have any complaints, they worked well for me. quality seems good. however these were the first hand tied leaders i've used, prior i used (and still have some) orvis ss and mirage.

prior to learning to tie, i bought some flies off of ebay, that was very hit and miss, some were of very good quality, others were made by a blind man w/ no arms, so he had to use his feet.
