George Leonard Herter was a convicted felon and a shameless liar. The misinformation in his book set me back years. He didn't know his arse from first base...:) (just for Dick...).

Rich: The Brooks book was probably about the first FF book I bought new, although I also had an Outdoor Life anthology of FF stuff that was probably 10 years older. It was largely essays by all the usual suspects from Sparse Grey Hackle to Hewitt to LaBranche, etc.

It took me a long time to figure out that most of these guys, while good fishermen, really weren't any wiser than a lot of other folks. They simply were of the landed gentry with a lot of free time and lived in fair proximity to the publishing capitol of the world at the time, New York.
