I initially learned how to nymph using Joe Humphrey's tactics. They worked, but they were a struggle for me and I really didn't enjoy nymphing. I started trying the Euro style, which I think is a natural evolution of nymphing from Joe's style. It works pretty well for me. There are a billion different nymphing leaders you can make and they will all have their pros and cons. I saw a video the Lively Legz crew put out on a quicky leader and liked it.

I also suggest watching a few videos on how you successfully nymph. It will help a heck of a lot more than a text style explanation or even having someone explain it to you away from the water. I find actually seeing someone do something helps me a ton.

Tight lines!!
