para,

I'll second Tom's suggestion to start with warm water fishes like bluegills. All too often, new FFers (esp if they're completely new to fishing) attempt to learn the basics on challenging trout waters. This often leads to fishless days and frustration. Plus, there's a lot of warm water opportunities around P-burgh allowing for short trips after class etc. If you have specific questions or a particular dilemma, by all means ask about it on this forum - you'll get lotsa feedback. There are also a good number of forum members in your neck of the woods and you might be able to get some direct help and a mentor. Good luck in 2009!
