I buy the best product for the job and the money. I don't think I'd be doing anyone any favors if I didn't. I don't mind paying more to support the local shops if the product is good. I'm not going to dicker over a few bucks for the service. I won't buy just for the USA sticker. Some foreign markets employ US workers and I don't have the time or energy to sort it all out. Also even though I have access to some top lines in fishing gear, I buy what works. And mostly I fish using really good hand me downs so I get to experience first hand why that \$100 pack wasn't worth the \$\$\$\$\$. I really don't need a lot of fancy stuff, but I sure like a good rod, an OK reel and waders that don't leak. I'm spoiled no doubt but still will buy used.
