I paid 149 for my TLS and 189 for my HLS. The TLS was bought at Orvis's yearly fall blowout, they now retail for about 300. The HLS was at retail price at the time. Oh by the way a GL or Sage would have cost me four times that. If you shop around you can buy American and save mulla. But again if your the look at my label and duds poser then this isnt for you. This sport is going the wrong way or maybe its the people who haunt forums like this one. It is truly sad for both.
