all good above.

simple and effective rig.

1. enough mono on reel , no flyline is used.
2. you can add a piece of hi vis for sight if you have it. tied to the end of mono on reel.
3. tippet ring? how about a small barrel swivel, easier to attach.
4. let's say 3 to 5 feet, 5x tippet, changing depending on water depth.
5. simplest, all amnesia, barrel swivel, 5x tippet.

work you way from there, customize with a dropper or droppers, add shot to point. thus drop shot leader.  
always go with darkest fly closest to bottom.

Kelly Galloup can explain this a little better. K Galloup. you tube, drop shot. Kelly's always helpful on other subjects as well.
