If you can get a hold of a kayak, get out past the breakers just after sunrise and watch for blues. Jack blues (10 - 16 inches ) will feed in big schools. Flounder you can get in the surf. I have had the most luck with small drum, 12-20 inches in the smaller inlets on the sound side of the road. Had the most luck with Clousers tied more sparsely than you would for freshwater fish.

What parts of the outer banks are you heading to? Might have more luck with one method over another if you're in Avon as opposed to Corolla.
