you guessed it and fell for it.

Thanks for all the interesting info on Euro nymphing. Don't assume though that I fell for anything. I've not bought any long light weight rod and it is likely I won't. I'll probably use my Helios 9' #4 with a #3 line and the appropriate leader and tippet. I've ordered hooks and beads to tie some of the flies I've seen on various online fly shops. Luckily I have a spool of red 30# Amnesia I will use to make a sighter.
