Ok Tomgamber here ya go. Fetha Styx \$ 260 USA, Echo 2 \$ 280 China, Diamondback Flawless \$ 299 China, LL Bean Orion \$300 China, Greys Platinum XD \$ 300 Korea, Redington CPX \$329 China, and on and on and on. If you take notice the Feta Styx is the lowest priced and its made by Americans in America. It thorws a line as well as most of us can and for some we hold it back. Buy American its the only country you have. If you have defended it nothing else needs to be said.
